

CONCENTRATED SERUM IN HYALURONIC ACID BASE 浓缩精华液-含玻尿酸

Reeds Concentrated Serums are clear, gel-like, highly concentrated with actives and formulated in Hyaluronic Acid Base, delivering the active ingredients deeper into the skin. As Serums do not contain oil, a cream is needed after Serum application to lock in the hydration and protect the skin barrier.

浓缩精华液含玻尿酸与活性物质，能深层补充肌肤水份与能量，全面增强细胞活力及弹性，增加皮肤紧密度，扩大皮肤张力，缩小毛孔，能令肌肤的每寸纹理都饱满、紧致，带给肌肤由深层提升般的弹力感。由于精华素不含油份，一般在使用精华素后，待有效成分充分吸收后再涂上一款适合自己皮肤的早晚霜。精华素通常含有较多水份，很容易挥发而导致皮肤干燥，而早晚霜则能牢牢锁住水分。

DIRECTIONS OF USE 使用方法

After cleansing and application of toner, dap 2~3 drops of serums onto face. Gently and evenly spread them over your face and allow it to penetrate and dry fully, after which follows up with the application of a cream. Use Serum twice a day for best results.

在面部清洁及涂抹收缩水，再涂抹 2-3 滴精华素之后要再抹上一层早晚霜。

BOUTOX-LIKE SERUM 除皱精华液 - A moisturising and wrinkle control serum.

Benefits

Anti-wrinkle, moisturises, hydrates and improve skin elasticity

抗皱纹，滋润，保湿，增加弹性

Active Ingredients
